Hi Vince,

Do you have any more background on this? Have you seen frameworks being fundamentally changed with the new data or more that additional data are being considered.

Vince,
I'd like to see your slides as well. Are they in STICS already?
Tina

Subject: Please comment: abstract for NAS workshop

Hello everyone—Next week I'll be speaking at an NAS workshop on "Advances in Causal Understanding for Human Health Risk Based Decision Making." We had the speaker-prep and session-outline call just this past Friday afternoon, and they want an abstract today.

Attached I what I've written up. I'd appreciate any comments before sending this on to the NAS staff later this afternoon.

Thank you,
Vince
